## SUMMARY

**“Senior Software Engineer with 8+ years of experience in Python, Node.js, React.js, AWS, and Full-stack development. Expertise in backend systems, cloud computing, and automation. Proven success in scalable ETLs, IaaS, and chatbot projects. Strong in system design and project leadership, delivering high-quality solutions in diverse and challenging environments.”**

## CORE SKILLS

### PROGRAMMING

C, C++, Python, HTML, JavaScript, SQL

### DATABASE

MySQL, PostgreSQL, MSSQL, MongoDB, AWS - SDK, EC2, SQS, EventBridge, Lambda, S3, Athena.

### WEB

Node.js, React.js, TypeScript, RESTful API, GraphQL, HTML5, CSS3, Jest.js

### CLOUD/SDK

GCP - Cloud SDK, YouTube Data API v3, Cloud Vision API, Maps API

## MISCELLANEOUS

Git, Gitlab, JIRA, Apache Kafka, Data Structures, Unit Testing, Performance Testing, Shell, Collaborating, Communication Skills, Design Patterns, System Design, Team Management, Adobe Photoshop, Adobe After Effects, CI/CD, Docker

## EXPERIENCE

**PRINCIPAL CONSULTANT** – StatusNeo Technology Consulting Pvt Ltd  
**Client (On-site):** McKinsey & Company

OCT 2024 - OCT 2025, Hybrid

**Technology Stack:** Python, FastAPI, Node.js, React.js, TypeScript, AWS Lambda, Amazon SQS, Amazon ECS, Docker, PostgreSQL, MS SQL, Git, Pytest, Unit Tests

### Major contributions:

- Led the analytics team at McKinsey, ensuring the survey portal stayed reliable while addressing long-standing technical and process challenges • Established coding standards and boosted test coverage from ~20% to ~75%, halving rollback incidents
- Re-architected the entire ETL flow, reducing 1,200+ API calls with a

**webhook-driven model**, improving performance and **reducing runtimes by 70%+ •**  
Enabled the team to **own multiple modules** through structured **cross-training**,  
**avoiding knowledge silos**

- **Shaped architecture discussions** for new features, ensuring **scalable, maintainable** designs across the board

### **SENIOR BACKEND ENGINEER** – *Solv India*

AUG 2023 – APR 2024, Remote

**Technology Stack:** Python, Nest.js, Node.js, React.js, TypeScript, AWS Lambda, AWS EventBridge, AWS Step Functions, SQS, DynamoDB, AWS S3, Git, FastAPI

#### **Major contributions:**

- Developed and integrated **Credit Scoring-as-a-Service** solution using **AWS Lambda, Step Functions, and EventBridge**.
- Configured **AWS Step Functions** and **EventBridge** policies to trigger **AWS Lambda** functions through **SQS, reducing score calculation time by 20%.** • Implemented **Dashboard UI** for monitoring and handling aggregated report generation related to score metrics with maps, charts, etc.
- Integrated event-driven components with **AWS Lambda** for automated processing.

### **SENIOR SOFTWARE ENGINEER** – *R Systems International*

JAN 2023 – AUG 2023, Remote

**Technology Stack:** Node.js, React.js, TypeScript, AWS Lambda, AWS S3, Pulumi, Jest.js, Git, Unit Testing

#### **Major contributions:**

- Developed **Infrastructure as Code (IaC)** using **Pulumi** with **Node.js** and **TypeScript** for cloud resource automation.
- Implemented business logic to dynamically scale **cloud resources** and reduced **deployment times by 30% on production.**
- Built a scalable **image distribution server** compliant with **DICOM** standards for **medical imagery.**

### **SENIOR SOFTWARE ENGINEER** – *OneAssist Consumer Solutions*

MAY 2020 – JAN 2023, Gurugram

**Technology Stack:** Python, React.js, Ejabberd (Erlang), Node.js, TypeScript, JavaScript, Apache Kafka, AWS Lambda, Jest.js, Git, Unit Testing, MySQL, GraphQL

#### **Major contributions:**

- Developed a **DialogFlow-based chatbot application** using **Python Django** to automate **claim processes** and handle general inquiries.
  - Configured and customized **Ejabberd (XMPP Chat Server)** to support **chat synchronization and optimized** it to allow more than **20k chats per day.** • **Optimised the response and turnaround times** from **20+ seconds to less than 5 seconds** and created **UI Dashboards** for monitoring the metrics.

### **SENIOR SOFTWARE ENGINEER** – *Techfour Engineering Solutions*

**Client (On-site):** *OneAssist Consumer Solutions*

AUGUST 2019 – APRIL 2020, Remote

### **ASSOCIATE IT** – *Daffodil Software*

**Client (On-site):** *OneAssist Consumer Solutions*

APRIL 2018 – AUGUST 2019, Gurugram

### **MEAN STACK DEVELOPER** – *Wish A Design*

APRIL 2017 – APRIL 2018, North West Delhi

**Technology Stack:** Angular 4, Node.js, Jest.js, MongoDB, TypeScript, Git, Unit Testing

#### Major contributions:

- Developed a **SaaS-based coworking management system**.
- Created a **multi-level authentication system** with **custom assignable privileges**.
- Built an **ERP module** for managing **bookings, inventory, admins, reports, and invoices**.

## PERSONAL PROJECTS

### YouTube Automation for Game Tournament Highlights

MARCH 2024 – PRESENT

**Technology Stack:** Python, FastAPI, Moviepy, PyAutoGUI, PyWinAuto, Git, Amazon SQS, Amazon S3

#### Major contributions:

- Automated the extraction and mapping of **game combat events**, including **damage, kills, and item usage**.
- Implemented a **custom scoring formula** to rank **teamfights** from best to worst.
- Developed automation scripts for **recording and editing highlights** using **OBS** and **Moviepy**.
- Created a process to **merge video clips, generate thumbnails, and upload content to YouTube** with appropriate **metadata**.

### Choice-based User Flow Implementation

JANUARY 2021 – MAY 2022

**Technology Stack:** React.js, Next.js, Node.js, TypeScript, MySQL, Jest.js

#### Major contributions:

- Designed and implemented business logic for managing **dynamic user journeys**.
- Created **reusable layout-based components** for **user interfaces**.
- Developed **Node.js REST APIs** for handling **user journey data**.

### DOTA 2 Custom Bot (Game Development)

JUNE 2021 – ONGOING

**Technology Stack:** Lua Scripting Language, Python

#### Supported features/critical areas of development:

- Developed a custom bot for **DOTA 2** supporting **1v1** and **5v5** game modes. ● Implemented **decision-making logic** for **passive, defensive, and offensive strategies**.
- Designed **situational spell casting** and **itemization** features.

### Real-Time Chat Application

MARCH 2015 – APRIL 2015

**Technology Stack:** Angular 4, Firebase, JavaScript, jQuery, HTML5, CSS3, Git

#### Supported features/critical areas of development:

- Developed features for **group chat, typing indicators, and emoticons**.
- Created **REST APIs** for **login/register** and **user journey flows**. ● Implemented **email verification** with **custom encryption**.

### Android Game Development

AUGUST 2014 – DECEMBER 2014

**Technology Stack:** C#, Unity3D, After Effects, Photoshop, Cinema 4D

#### Supported features/critical areas of development:

- Implemented **collision detection, power-ups, and UVW mapping** development.
- Developed features like **God Mode** and **Magnet** for enhanced gameplay.

## C++ Game Development (Win32 Compatible)

FEBRUARY 2014 - MARCH 2014

**Technology Stack:** C++, C++ Graphics Library

**Supported features/critical areas of development:**

- Developed a game with **multiple difficulty levels and dynamic problem generation.**
- Implemented **high score storage** with **encryption** for secure data handling.

## AWARDS/CERTIFICATIONS

- Solved **500+ coding problems** across platforms like **LeetCode, CodeChef, TechGIG, and HackerRank**, focusing on topics like **Dynamic Programming, Trees, Tries, Linked Lists**, and other advanced algorithms
- **Actively participated** in online **coding competitions** on platforms such as **LeetCode, CodeChef, TechGIG, and HackerRank**, consistently honing problem-solving and time-bound coding skills
- Consistently qualified for **Google Code Jam**, achieving global **ranks of 7,752, 12,025, and 16,833** across different editions • Completed **Computer Science training programs** offered by **Microsoft, Google, and Facebook**, covering core technical and industry-relevant topics

## EDUCATION

**KCC Institute of Technology and Management** – *B. Tech. (CSE)*

2013 - 2017, Greater Noida, **65.1% Aggregate**

**D.A.V. Public School (CBSE)** – *HSC (12th) + SSC (10th)*

2011 - 2013, Delhi, **82.3% Aggregate (12th) + 80% Aggregate (10th)**

## LANGUAGES

**ENGLISH** – *Fluent*

**HINDI** – *Fluent, Native*
